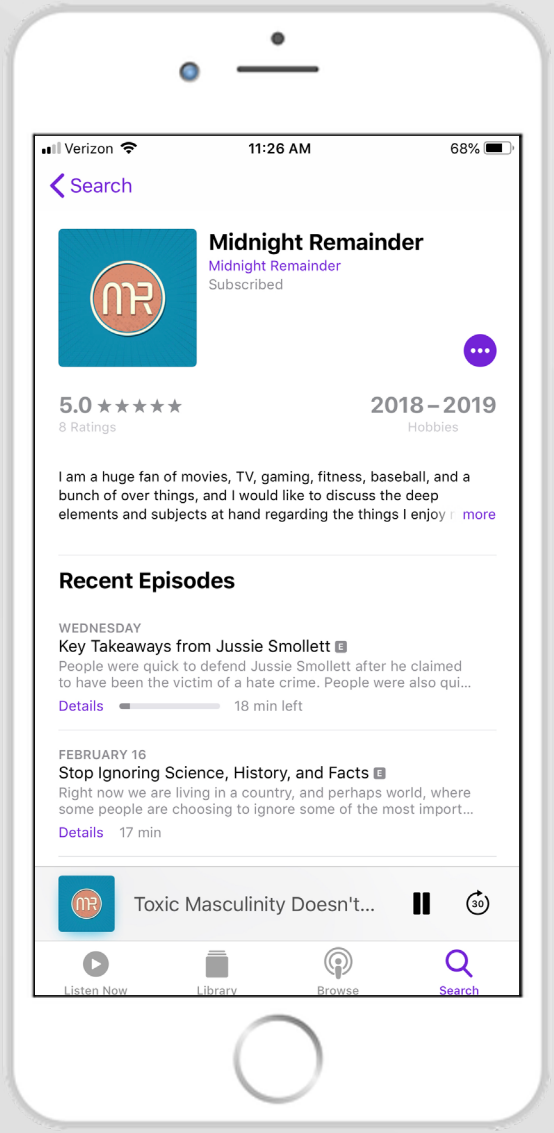
Midnight Remainder



Midnight Remainder is a twice weekly podcast that goes up on Wednesdays and Saturdays, and covers popular topics, personal topics, and topical subjects with the intent of unifying, opposed to pandering or targetting a specific type of person. Anything from video games to recent political events may be covered, but in a manner and mood that makes sense and translates well no matter what the subject of the episode is.

Midnight Remainder aims to promote healthy and respectful discussions, even for the most controversial of subjects.

DeLorean Font Concepts

DeLorean was designed with the goal of creating a futuristic looking font to be used in logos and headers. I wanted to make it almost alien looking, but never sacrifice readability by taking it too far.
